### Standard equipment

- Compact and harmonic line, studied for assembling on 4 axles chassis
- Chassis at extremely high torsion absorption, calculated according to Finite Elemental Methods (FEM)
- Ideal load distribution on the axles to obtain better driving stability
- Outriggers fully hydraulic controlled on both machine sides with front telescopic double extension at automatic patented sequence and fixed rear outriggers.
- Great loading capacity drum with elliptic bottom, in high wear resistant steel of 30 MnB5
- Placing boom MK 28.4 L, 4 sections, pipeline diameter 100 mm, "Z" folding system
- CIFA Pumping unit with 7" valve of high concrete suction performances and filling ratio, less wearing, improved and optimised shape to reduce wearing and diesel fuel consumption
- Proportional boom control
- Polymer rear mono-axle mudguards with rubber mudflaps
- "BFC" Best-Flex Cifa supporting system which allows quick, easy and safe pipeling changing by just one worker
- Concrete flow regulator
- Safety device at concrete discharging door opening
- Noiseless pumping with high performances: smooth, continuous and easy movements
- Reduction 5"-4" 3000 mm length to decrease pumping pressure and wearing
- Two proportional radio remote control with two boom movement speed, synthesiser for automatic frequency search, 8 position joy stick and concrete flow rate regulator. 20 mt cable
- Two zinc-coated additional chutes, with supports for their fixing on counterframe
- Vibrator on the concrete hopper grid with remote control
- Centralized lubrication system for pumping unit
- Oil automatic lubrication system for pumping pistons
- Additional manual lubrication system for pumping unit
- Polymer rear mono-axle mudguards with rubber mudflaps
- Hard plastic outrigger support plates with relevant housing
- Light for pumping unit hopper
- Accessories for cleaning and washing
- Automatic adjustment feeler of truck-mixer discharge into hopper
- Concrete pipes with double thickness, in high wear-resistant steel - Cifa Long Life Pipes
- Long life wear plate and cutting ring with hard carbide inserts

### Main options

- Continuous boom rotation
