

Rotating Screening Buckets | Product range

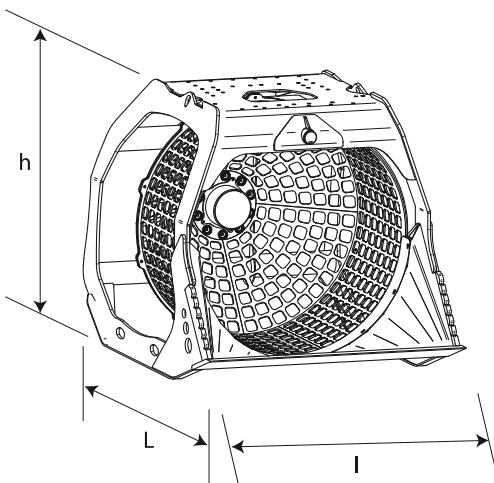

Applications

Ideal for specialised work such as screening natural material, before or after the crushing phase, quarry residues, sand and dry soils as well as for clearing river-beds and cleaning of beaches.

A crucial piece of equipment in all situations where smaller pieces need to be obtained.

Advantages

- Large capacity of screening baskets.
- Strong frame structure for a better protection of screening basket, even in the heavy duty jobs.
- Large choice of screen sizes for easy changing and versatility.
